Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

Currently, Claims 35-38 are pending. Claims 35-38 are examined on the merits.

Election/Restrictions

Applicant's election with traverse of Group I (Claims 35-38) in the reply filed on April 9, 2008 is acknowledged. The traversal is on the ground(s) that the restriction is improper. This is not found persuasive because Lee at al. (Journal of Food Science, 1986, cited in Applicant's IDS) teach the use of zingibain as a meat tenderizer (see, e.g., the abstract and the entire document), while Applicant claim that zingibain is used to affect food intolerance. Therefore the technical feature is not a contribution over the art, and the claims lack unity.

The requirement is still deemed proper and is therefore made FINAL.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 36 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

What is meant by "reducing" food intolerance?

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

Art Unit: 1655

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 35-38 are rejected under 35 U.S.C. 102(b) as being anticipated by What is Ginger (<http://www.ccba.bc.ca/discuss1/disc1/000011fc.htm>).

What is Ginger teaches ginger contains proteolytic enzyme zingibain and it has been known in ancient times to flavor breads, sauces, curry dishes, confections, pickles, and ginger ale and is used in cooking (page 4).

What is Ginger does not specifically teach using zingibain to reduce food intolerance and remove food intolerance. However, the method of using ginger to flavor food is considered to inherently teach the claimed method because both the reference and the claimed invention are administering the same composition to food. Thus, on the administration of ginger to food, changes in food intolerance would have had to occur if applicant's invention function as claimed.

Conclusion

No claim is allowed.
